The HMT VersaDrive V125T is the first UK Built portable drilling machine range designed for the 21st century. Designed to meet a need in the market for a high-performance, low-maintenance, industrial quality portable drilling unit and to deliver constant performance in the most challenging drilling environments and fabrication conditions.

Combining light weight and portability with a high power all-day broaching capability up to 125mm diameter is combined with a forward reverse, variable speed motor that will tap holes up to M32 diameter. Fully rated for reaming, countersinking, and tapping. Advanced British electromagnets provide enhanced magnet hold for exceptional safety and stability.

In addition to standard through-hole tapping, the V125T can also be used with the VersaDrive blind hole tapping system up to M30 diameter.

Supplied with handles, heavy duty metal sliding guard system, morse taper broaching arbor, VersaDrive adapter, site case and gravity fed coolant system.
