

Extractability™

PRODUCT INFORMATION

ProtectoBench Advanced

EXT562110140

SUMMARY

ProtectoBench Advanced H13 is a downdraft and back wall extraction bench with two durable large surface area filter cartridges, with manual cleaning function. The extraction bench removes hazardous welding fume and dust at source and is an extraction and filter system in one.

Optional automatic cleaning when required with compressed air. Filtered air is re-directed back into the workplace, saving on heating costs.

TARGET APPLICATIONS

ProtectoBench Advanced is suitable for welding and grinding alloyed, steels, precious metals and galvanised material.

Not to be used on explosive dusts.

ORDERING INFORMATION

ProtectoBench Advanced H13	EXT562110140
Lighting Kit	EXT5621101403
ProtectoBench Advanced PTFE H13/H14	EXT562110140P
Cartridge Filter PTFE H13/H14	EXT562110140P2

KEY FEATURES

- Hepa 13 filter area of 40m²
- Hinged side panels
- Removable bottom grills for easy access
- 2.000M³/h fan capacity
- Collection bin
- Optional PTFE cartridge HEPA 13/14
